

## **KEEP YOUR DEBIT CARD INFORMATION SAFE**

- **Cover your PIN** – Cover the keypad when entering your PIN to ensure privacy.
- **Monitor your bank accounts** – Set alerts on your accounts to notify you of suspicious activity.
- **Vary your PIN** – Do not use sequential numbers like “1-2-3-4” for your PIN and avoid using the same PIN on different accounts.
- **Choose the credit option** – When using a debit card with a Visa or MasterCard logo on it, if you have a choice, pick credit not debit. This way you won’t need your PIN and the transaction will process through a credit card network which provides greater security.
